Forecast for Wednesday 25 Aug 2021

Weather: Any early low cloud and hill fog will rise above the summits by 10 am. The rest of Wednesday will be dry and bright. Although there will be more cloud around than on Tuesday, full sunshine is likely for much of the afternoon.

Chance of cloud free mountain/hill tops above 600m: Before 10am, 40% with cloud likely down to about 300m above sea level. Between 10 am and 4 pm, 90% with a small chance of patchy cloud covering high ground above 500m. 4pm to 8pm. 100%.

Visibility: Generally good with fine views of distant hills up to 30km away. Early low cloud may cover hills to 300m or so above sea level, so hill fog on the summits may lower visibility to 200m or so until 10 am.

Meteorologist's View

The light wind speeds and warm temperatures in the chart look realistic. Temperatures in sheltered valleys may rise a few degrees higher than shown, perhaps reaching 21 Celsius. UV levels are moderate, but even so, sun protection is recommended for prolonged exposure to August sunshine.

Forecast for Thursday 26 Aug 2021

Weather: Low cloud and hill fog will persist longer on Thursday morning as a weak weather front passes over. However, the weather will stay dry throughout, and cloud will rise above the summits by noon, leaving a dry, bright and warm afternoon with light winds.

Maximum wind: North-easterly14 mph with gusts of 20 mph above 600m on Thursday morning.

Chance of cloud free mountain/hill tops above 600m: Before 1200, 30% with cloud likely to cover the hill tops. After 1200, 90% with mostly clear skies.

Visibility: Morning low cloud may cover hills to 200m or so above sea level, so hill fog may lower visibility to 200m or so until noon. In the afternoon, visibility will be generally good with fine views of distant hills up to 30km away.

Temperature: **Valleys:** 11 Celsius at dawn rising to 21 Celsius in the afternoon.
At 600m: 10 Celsius at dawn rising to 16 Celsius in the afternoon.
Freezing level: Well above the summits.
